Subject: Blue Spike v. Facebook - stipulation
Date: Thursday, July 17, 2014 7:51:52 PM

Dear Randall,

We see that Blue Spike has filed a new complaint against Facebook. However, we still have not received a draft stipulation from Blue Spike confirming that Blue Spike does not have claims against Facebook's technology in the case against Audible Magic. As of now, it is still unclear whether Facebook's technology is in the Audible Magic case and Facebook's motion to dismiss or sever is still pending.

Please send us the draft stipulation tonight without further delay so that we can review it.

Best,

Janna K. Fischer
